STANDING UP
FOR YOU

EDUCATION

Introduce a national education service including universal public childcare, more free education and investment in quality apprenticeships.

THE NHS

End health service privatisation and bring services into a secure, publicly-provided NHS. Invest in Social Care and fund the NHS for future generations.

JOBS

A national investment bank to put £500bn into infrastructure and industry, helping to create full employment and an economy that works for all.

HOUSING

We will build 1m new homes in five years, at least half of them council homes. We'll also introduce rent controls and secure tenancies.

SERVICES

Put the public back into our services by renationalising railways, investing in public-owned bus services and bringing leisure facilities back into local government control.

TAXES

We will cut income and wealth inequality and create a progressive tax system, ensuring that the highest earners pay their fair share.
